

Transformateur UV électronique Lampe à mercure électrique, lampe à polymérisation UV en métal, transformateurs numériques électriques à économie d'énergie

Numéro de modèle	Transformateur électronique numérique
Phase	Trois
Usage	UV Lampes tension de fonctionnement et courant réglables
Tension primaire nominale	220
Tension secondaire nominale	950
Pouvoir	1kw-20kw
Nom du produit	Transformateur électrique
Pouvoir	1kw-20KW
Taper	Numérique
Application	Utilisation de l'équipement UV de la machine

Connecter : 2 broches dans les deux têtes. Style de **Lampe de polymérisation de transformateur UV** Fournisseur chinois de lumière déduite
