

1000w 400mm CS101 Resin [UV Curing Lamps](#) For Shoe Making UV Ink Curing UV Lamps UV Glue UV Paint Chemical Curing UV LED

watt: 1000w
Overall length: 400mm
Main wavelength: 365nm
Working voltage: 160V
Working current: 6.5A
Lamp Style: Mercury [UV Lamp](#)
Head Style: Metal
Service life: more than 800 hours (the electricity transformer will have a longer service life of 1500 hours)

Application: UV glue, 1000w UV ink curing UV curing lamp

PARAMETER DETAILS:

watt range	1000w (250w/400w/500w/1kw/2kw/3kw/4kw/5kw/5.6kw/8kw/9kw/9.6kw/11kw/12kw...25kw)
Wavelength	210-410nm
main wavelength	365nm
length can do	400mm (Customize 120-2500mm)
Diameter	22mm (18mm/25mm/26mm/28mm/32mm/35mm...)
tube material	high purity quartz
transfer rate	95%
cable length	300mm standard (special to be customized)
Voltage	personalize
Request	uv ink, uv glue , UV varnish, UV paint curing machine ultraviolet lamp replacement

Tube material:

GE High Purity Quartz

Pure tungsten electrode

Gold coated tube electrode with consistent performance

Tube diameter: 18mm 22mm 28mm 32mm

Ceramic base: withstand high voltage working with longer lifespan

Wire: temperature resistant with high insulation
