

Half Gold IR Lamp 2000w 735mm Shenzhen Infrared Ceramic Emitter For Heating Infared Infered Lamp

Power: 2KW 220V Twin Gold IR tube lamp

material: High Purify quartz

Total length: 735mm

Head base: 10mm

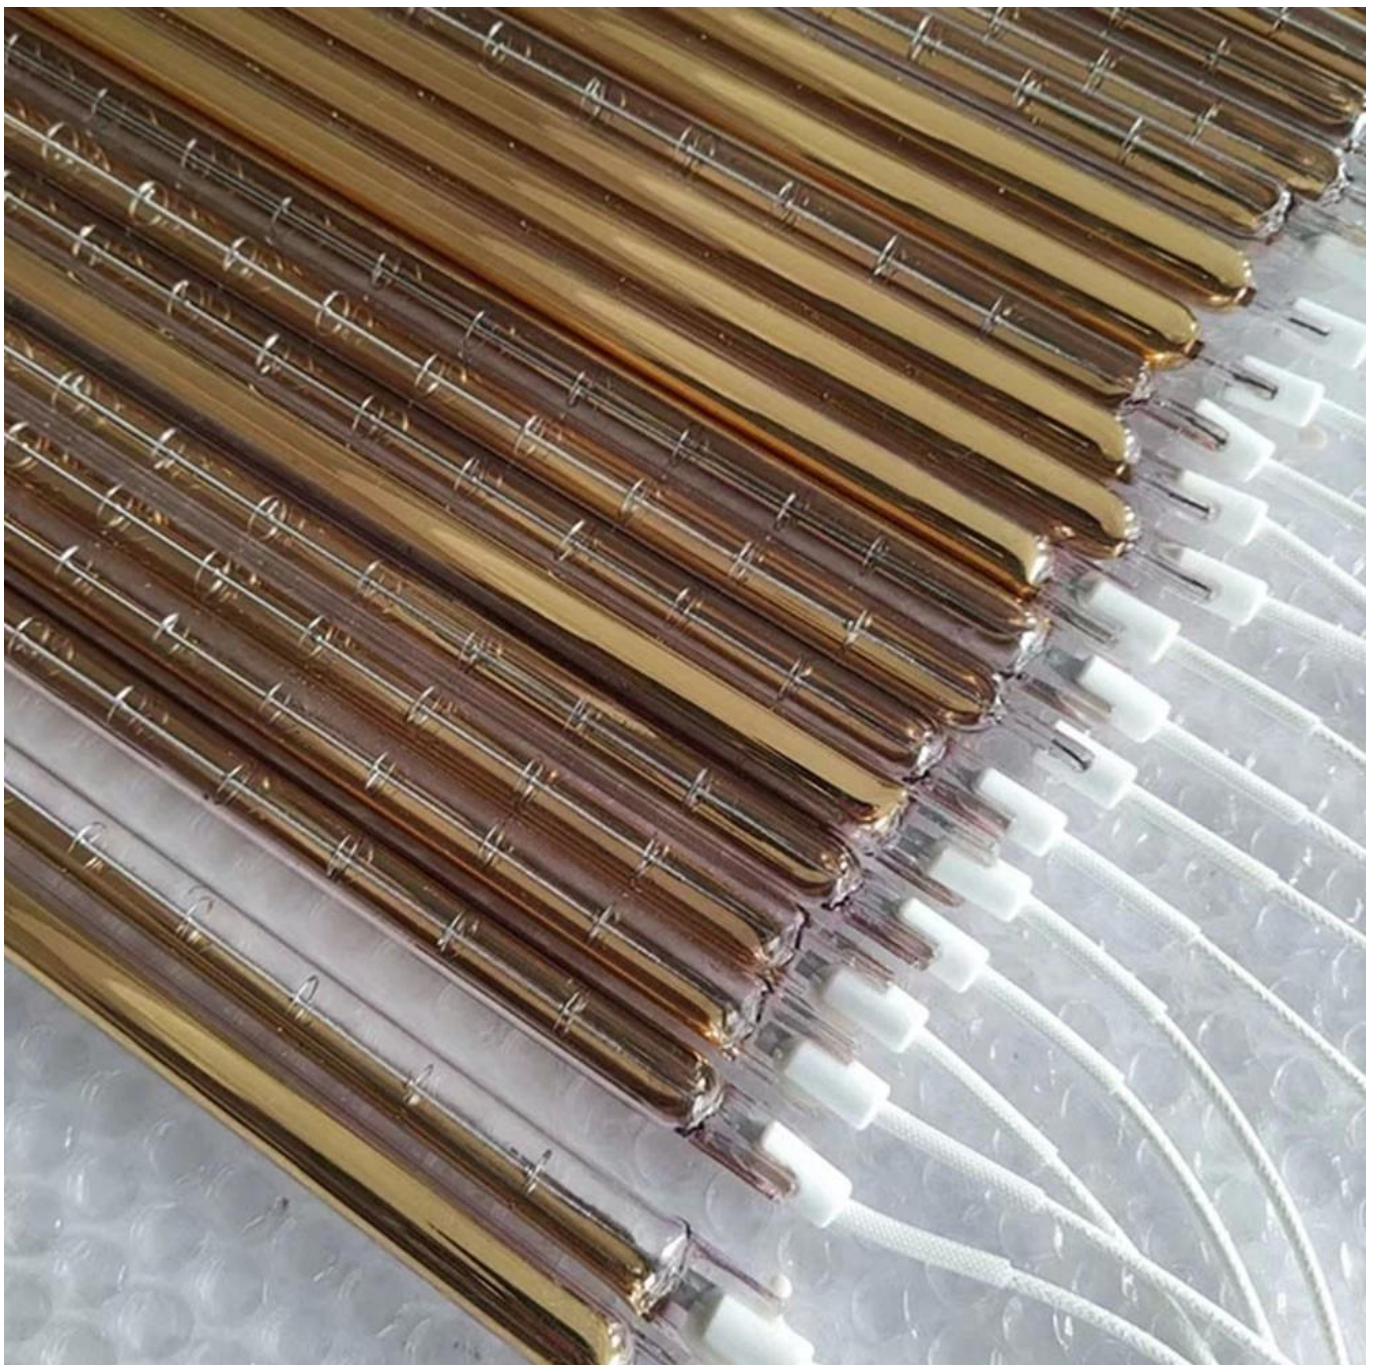

Reflector: Half Gold (Half White by Customize)

Average lifetime: 5000H

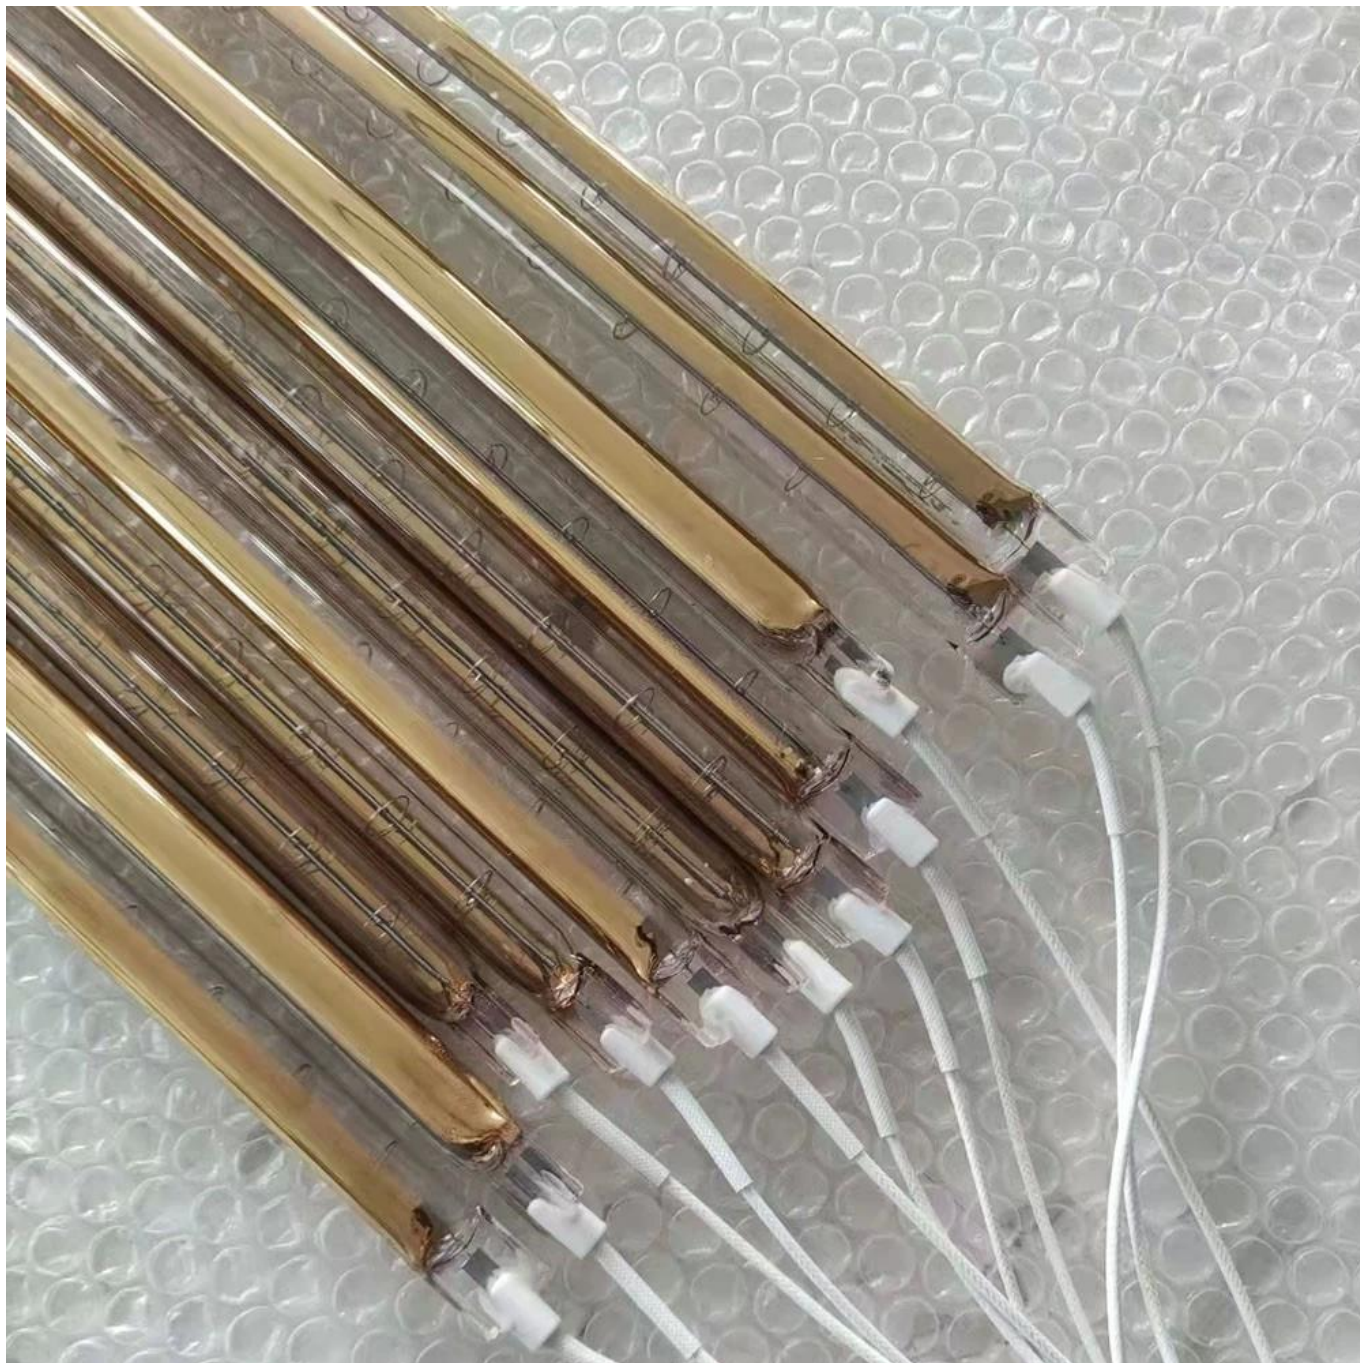

Wire connector: 500mm (Or By Customer)

Suit for model: printing, electric conveyor IR heating drying

Certification: ce

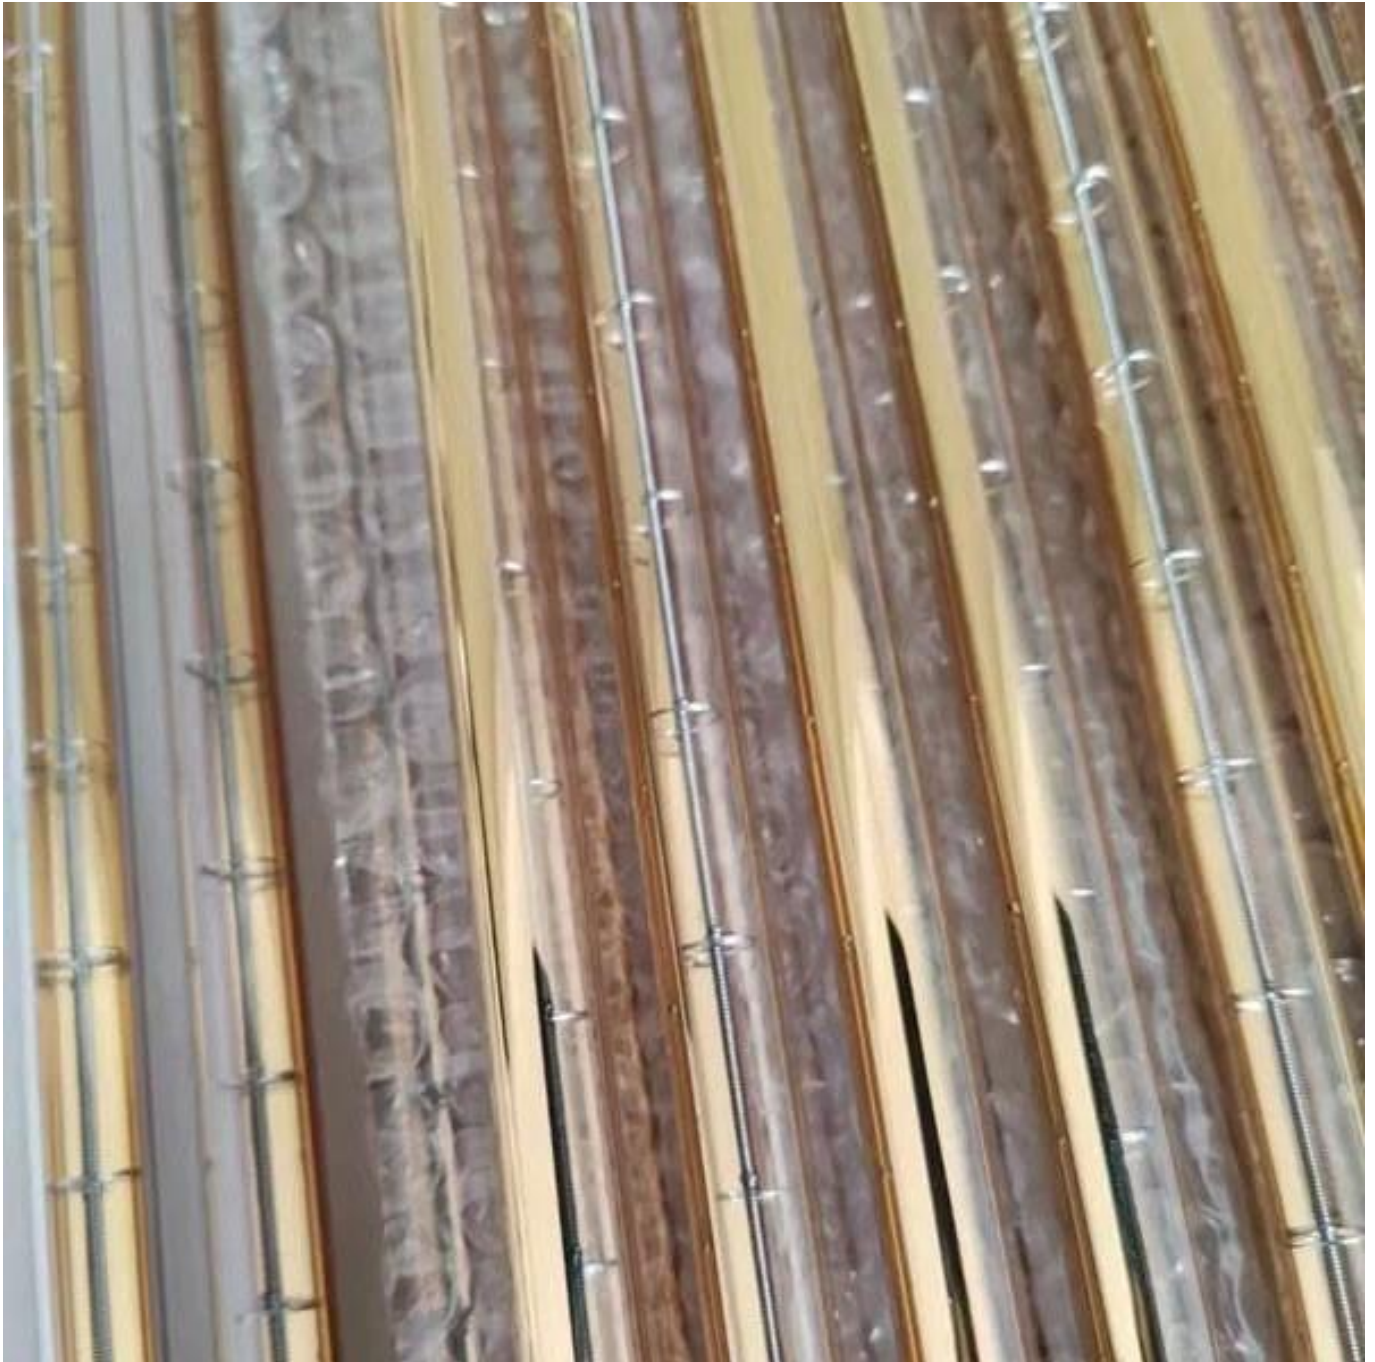

PARAMETER DETAILS:

Reflector	Half Gold (Half White by Customize)
Average lifetime	5000H
Wire connector	500mm (Or By Customer)
Suit for model	printing, electric conveyor IR heating drying
Certification	ce
material	High Purify quartz
Color Temperature(CCT)	red

Different Infrared Lamps Picture Show:

Short wave infrared (near infrared) has the characteristics of 1-3 seconds heating and cooling time, which makes the heating process control more flexible.

Infrared Lamps and Half Gold Heat lamp China Manufacturer are used widely in Printing Industries. Automative drying, Electrons parts curing, coveyor belt dryer. [ir lamp](#) dryer system, curing ir lamp 5kw, high efficiency [ir heating lamp](#).
